

Model KB3/TP

Compact Keyboard with Touchpad

FEATURES

- **Small Footprint**
- **Windows 95 Compatible**
- **PS/2 or AT Connections**

DESCRIPTION

The KB3/TP offers a full 104 key functionality for Windows 95 applications in a small footprint package. Included with the keyboard is a Synaptics Touchpad that is fully Microsoft mouse compatible in operation. Additional functionality is included when using the driver software

included with the keyboard. Durability is obtained by the Gold Crosspoint contacts incorporated which offer a minimum of 50 million operations per key. For all applications where restrictions on the working space are a problem, the KB3/TP can help to alleviate some problems.
